EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with J. Johnson on 20 November 2009.

The application has been amended as follows:

For the claims:

Claim 1: line 14, amend "pivotable relative to first" to --pivotable relative to said first--.

Claim 2: line 3, delete "of a trapezoidal-type" and add --substantially trapezoidal--.

Claim 38: line 9, delete "and".

Claim 39: line 3, delete "of a trapezoidal-type" and add --substantially trapezoidal--.

Art Unit: 3635

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose the claimed invention including the combination of the panel and fastening member. The specific limitations of the clamp are not present in the prior art of record in combination with the panel, and to modify the prior art of record to achieve the claimed limitations would constitute impermissible hindsight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

3. The restriction requirement among the various embodiments, as set forth in the Office action mailed on 18 September 2007, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 7-11, 46, 48, 55-59, 62 and 63, directed to previously restricted embodiments are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Conclusion
